

Jan Janzen

## Breast Health Exposed

### **Healthy Breasts Don't Get Cancer!**

Every 12 minutes, a woman dies of breast cancer, so why does Jan Janzen say every woman can have healthy breasts?

*Breast Health Exposed* is a "must read" for women. Written in everyday language, it takes medically proven secrets many doctors don't even know about your breasts, and shares them in an enlightening and provocative way. You will wonder why you haven't been told these secrets before.

"After 30 years of medical practice, I know that medicine cannot do it all. Women are their own powerful resource for health and healing. In her thoroughly researched book, Jan Janzen guides women in the first steps to tap into these little known resources.

**A gem of a book that is sure to make a big impact!"**

- Dr. Nelie Johnson, MD

"This book brings to light simple tools any woman can easily access to improve their overall breast health.

**Informative, clear, easy to read and most of all, inspiring!"**

- Dr. Alexina Mehta, ND
